

CORE VALUES

The vision, mission and core values are posted on the website. They are integrated into programs and communicated to all the stake holders. One of the missions of our institution is to cater to the higher educational needs of this area in general and of the weaker sections in particular so that access and equity are provided and its vision is to produce competent, committed, socially responsible, human resources. Since its inception our institution has been after outreach programs, which develop a sense of commitment and social responsibility and by offering quality education at a low cost, and by inculcating values, it has been contributing to the national development.

Global Competence

The concepts of globalization, liberalization and privatization are drilled into the minds of the students to emphasize the need to acquire skills to face global competition. Offering a number of value added certificate courses, organizing thought provoking national seminars on the burning issues , involving students in decision making, giving freedom to them to take lead in community outreach programs, and motivating them to take part in innovative programs and by giving them access to the knowledge and skills, necessary to navigate and succeed in today's interconnected world,

Value System among Students

One of the missions of our college is to facilitate young learners with opportunities to hone their ethics and leadership potential. The last hour of every Saturday is demarked for value based education in which students take lead , speak on burning issues of contemporary society , especially on the untoward incidents making the fair sex target and on corruption, pollution, adulteration , trafficking etc., Their participation, expression of their feelings, sharing the views of the speakers interacting with them go a long way . The Foundation Course on 'Human Values and Professional Ethics' is useful to the students but their involvement in the last hour of Saturdays prove to be more useful.

Technology

Use of technology has become a basic need as it provides education crossing borders and continents. Online courses, Video conferences and applications like Skype have created a global platform of teachers and students who can share knowledge in an easy and convenient manner. Teachers remain in constant touch with their students through e-mails and have access to a gamut of information within seconds. Online libraries and e-books, Use of animation, videos, multimedia aids have transformed traditional learning methods by making it more engaging, fun and entertaining. Education through technology is innovative, economic , entertaining and inspiring. There is a need to promote the use of technology more and more. Use of technology as a learning resource, managing the activities of the institution in a technology-enabled way will ensure effective institutional functioning.

Quest for Excellence

Our institution is committed to provide the best educational experience possible to every student. Innovative methods of teaching, access to the entire world in no time through technology, information about the entire world promotes a sense of competition, which leads to quest for excellence.
